Warranty Information & Warranty Card

This is a limited warranty covering defective materials or workmanship on only those items originally supplied by Winnipeg Engine & Transmission for a period of 1 year or 20,000 kilometers, whichever occurs first. This warranty is not an unconditional guarantee against all hazards, failures, damage or improper installation procedures. If after installation any Winnipeg Engine & Transmission remanufactured engine or transmission that is deemed defective* (see Limitations, Defects and Service Restrictions) then an allowance* (see Installation Allowance) covering a portion of the cost of the installation (when installed by a professional certified repair facility) is provided.

Basic Limited Warranty

The Basic Limited Warranty covers Passenger Cars, Light Duty Trucks, Commercial, Industrial, Marine, Fleet and Recreational Vehicles for a period of 1 Year or 20,000 Kilometers (whichever occurs first).

Extended Limited Warranty

Extended Limited Warranty packages covering Passenger Cars and Non Commercial Light Duty Trucks for up to 3 years or 60,000 Kilometers are available for an additional cost when purchased within 15 days from the original date of purchase. Contact your Winnipeg Engine & Transmission dealer for pricing and additional details regarding this Extended Limited Warranty.

Installation Allowance

In the event a Winnipeg Engine & Transmission remanufactured engine or transmission is deemed defective* (See Limitations, Defects and Service Restrictions), after installation, then an Installation Allowance, for passenger cars and non-commercial light duty trucks, covering the original installers shop rate up to maximum hourly rate of \$55.00 CDN multiplied by 80% of the retail time listed in the current release of the Mitchell Time Guide will be provided under this warranty. For commercial, marine, industrial, fleet and recreational vehicles (under 11,000 GVW) the installation Allowance will be the same as above only a \$650.00 CDN labour cap will be applied

Limitations, Defects and Service Restrictions

If our product requires any service other than regularly scheduled maintenance within the warranty period you must notify Winnipeg Engine & Transmission of the intended service prior to the start of any work. Failure to provide prior notification could result in your warranty being voided. Any parts suspected of being defective by the approved repair facility must then be returned to Winnipeg Engine & Transmission for inspection. The inspection must be performed by Winnipeg Engine & Transmission, and must determine conclusively that the failure was due to defective materials or workmanship. If the repair requires replacement parts covered by this warranty Winnipeg Engine & Transmission will supply the parts to the approved repair facility at jobber cost. Water pumps, timing belts, and any other routine maintenance items supplied with the engine are covered under the basic warranty.

This warranty does not cover failures caused by improper installation or installation of defective parts not originally supplied with the engine. This warranty does not cover engines that have been abused, neglected, overheated or operated under harsh or severe conditions that typically cause failure. Under no circumstances will Winnipeg Engine be liable for oil, oil filter, antifreeze, towing, car rental, or any other incidentals. Replacement or repairs to the original product do not extend this warranty.

Warranty Is Void If

The attached warranty card is not submitted to Winnipeg Engine & Transmission within the specified time or does not contain all of the requested information. If the new engine oil cooler and oil cooler lines are not installed at the time of the engine installation. The re-installation of parts from the original engine or transmission which may have been damaged or contain debris as a result of the original failure such as; valve covers, oil pans, timing covers, intakes, fuel delivery systems, air delivery systems, etc. or have insufficient cooling systems, and or ignition systems which are not properly cleaned and or inspected prior to re-installation onto any of our products.
